

# INTEGRATED **PHOTONIC** TECHNOLOGIES CENTER

# INPHOTEC

## TECHNICAL PRESENTATION DAY

Pisa

**May 15, 2015**

10:00 a.m.

Institute of Communication, Information,  
and Perception Technologies  
CNR Campus, San Cataldo

With January 1, 2015 has been completed the operability of the new Center for photonic integrated technologies of Scuola Superiore Sant'Anna in Pisa. Realized with the contribution of the Tuscany Region, with about 800 square meters of clean rooms, INPHOTEC constitutes an infrastructure open to industrial users and not only, of certain importance in a field regarded as pervasive and strategic for the future of technology in many fields.

The day has the intent to put in contact the interested parties with the capabilities of INPHOTEC, describing the technology platforms, the related operational specifications, and how to access to its use. In the afternoon a visit to the equipment inside the cleanroom is foreseen.

## PROGRAM

- 10.00 Welcome and introduction to INPHOTEC, G.Prati
- 10.15 The platforms for fabrication, S.Doneda
- 11.00 The platform for packaging, G.Preve
- 11.30 The CNIT Silicon Photonics Design Center, M.Romagnoli
- 12.00 The access to the use of INPHOTEC, G.Prati
- 12.30 BUFFET LUNCH

from 13.30 TECHNICAL VISITS TO CLEANROOM\*

\* every 15 minutes, groups of 6 persons, duration 40 minutes incl. (un)dressing
